

# Educating Toward Wisdom

serves as a professional resource for administrators and curriculum leaders in Christian schools. It brings together numerous ideas and activities to challenge and affirm deeply-held beliefs about Christian education. This resource

- provides ideas and examples for building community,
- serves as a catalyst for school leaders to use in leading faculty discussions about vision,
- encourages ongoing curriculum development,
- provides avenues for personal and collective renewal of pedagogy, and
- challenges current assessment practices.

*Educating Toward Wisdom* is a collaborative project of the Society of Christian Schools in BC, Alta Vista, and Northwest Christian Schools International.

*Developed by Elaine Brouwer (Regional Coordinator, Northwest Christian Schools; Co-Director, Alta Vista) and Robert Koole (Director of Curriculum, SCSBC)*

## CONTENTS

### Community

1. **Guiding Questions**
2. **Feature Articles**  
How Do We Forge a Community for Learning?  
Communities, Organizations, and People  
Teachers as Colleagues
